Note: SLPI compilation methodology closely follows the methodology employed in compiling the Legatum Prosperity Index, which is a global indicator to assess countries' economic and social wellbeing. Accordingly, the index values are compiled by normalising each and every variable with respect to its best and worst values recorded during the last 15 years. Therefore, a new set of numbers are released every year for SLPI and its sub indices. The highest and the lowest values that can be taken by a normalised variable are 1 and 0, respectively. Thereby, the index values are also ranged between 0 and 1. Thus, higher the index value, its performance overtime and across provinces are comparatively high and vice versa.

(b) Provisional

(c) Informal private sector wage rate index was rebased to 2018 (from 2012) in order to capture the recent changes occurred in the informal private sector wages and the employment structure. The index numbers are calculated using wages data of informal private sector collected through the Country Wide Data Collection System. Base period employment structure was derived from the Quarterly Labour Force Survey conducted by the DCS in 2018.

(a) According to the Ministry of Finance, the fiscal sector statistics of 2020 have been adjusted as announced in the Budget Speech for 2020.

(b) Provisional

(c) As per the guidelines of compiling government debt statistics in the Manual of Government Finance Statistics published by the IMF in 2014, non resident holdings of outstanding SLDBs have been classified under foreign debt and resident holdings of outstanding ISBs of the Sri Lankan Government have been classified under domestic debt from 2019 onwards. Further, the debt statistics are presented on net basis (net of deposits).

(d) The outstanding central government debt excludes several debt service payments that became overdue after 12 April 2022, the date of which the Interim Policy regarding the servicing of Sri Lanka's external public debt was announced by the Ministry of Finance, Economic Stabilisation and National Policies. These debt service payments comprise of overdue interest payments of affected debt which are deemed to be capitalised as per the Interim Policy. Further, December 2022 balances excluded certain coupon payments pending settlement in relation to SLDBs.

(e) From 2023 onwards, domestic debt compilation method was change and is based on the data confirmed by the Ministry of Finance, Economic Stabilisation and National Policies.
